OEM • ODM • Private Label • Global B2B Supply

Product photographs are existing owner-supplied catalog references. Final specifications are project-specific.

ABOUT SMARTPRO GIFTS

Product Selection with Clear Project Control

Shenzhen Smartpro Gifts Co., Ltd. is a multi-category custom bag project and supply company. Our product scope includes tote bags, backpacks, business bags, cosmetic pouches, organizers, lunch bags and related bag categories.

Bowolf Zeng, SmartPro project contact.

LEGAL ENTITY

Shenzhen Smartpro Gifts Co., Ltd. Unified Social Credit Code: 91440300MA5GC2Y088

PROJECT SCOPE

Multi-category custom bags for business buyers, private-label programs and branded projects.

DEVELOPMENT

Reference images, samples, sketches or specifications can start the project review.

PROJECT CONTROL

SmartPro coordinates the brief, sample, approved specification, quality checkpoints, packing requirements and suitable production route.

COMPANY RELATIONSHIP

SmartPro coordinates broad multi-category custom bag projects. Shenzhen Hongzhao Handbag Co., Ltd. is SmartPro's parent company and specializes in outdoor and functional bags. Hongzhao evidence is relevant only when that company is the proposed production route.

COMMERCIAL BASELINE

Plan the Brief Before the Quote

These are confirmed baseline terms, not automatic promises for every design. Final feasibility is confirmed after the product, material, branding, quantity and packing requirements are reviewed.

50 pcs

Selected feasible projects can start from 50 pieces per style and per color.

3–6 days

Usual sample-making time after payment, subject to materials, construction and tooling.

25–30 days

Usual first-order bulk production after payment and sample approval.

20–25 days

Usual repeat-order production when the approved specification remains applicable.

What to send for a useful first review

- Product photo, link, sketch or physical sample
- Estimated dimensions and intended contents
- Material direction and logo artwork
- Quantity by style and color
- Packing needs, destination and required timing

Transport time is separate and depends on destination and shipping method.

MULTI-CATEGORY PROJECT WORKFLOW

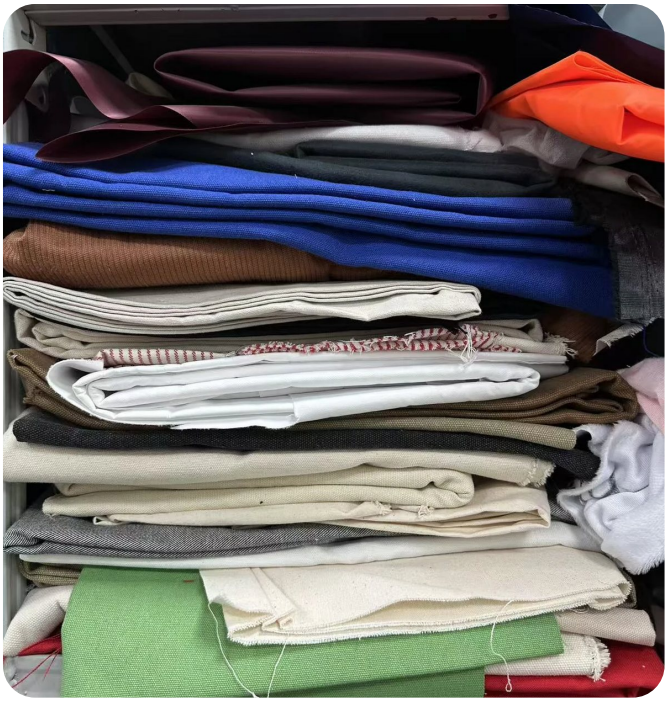

From Product Brief to Finished-Bag Review

SmartPro coordinates the buyer brief, product references, sample decisions, approved specification, quality checkpoints and packing requirements before confirming the appropriate production route.

PRODUCT REFERENCE

Use the category and reference style to define function, dimensions, structure and branding.

MATERIAL DIRECTION

Fabric, lining, color, hand feel and logo compatibility are reviewed before sampling.

PRODUCTION-ROUTE CONTROL

SmartPro does not assume that one factory fits every category. The proposed production route is confirmed only after the product, material, branding, quantity and quality requirements are reviewed. Any factory document must match the legal holder and the actual route used for the order.
